## Introduction

---

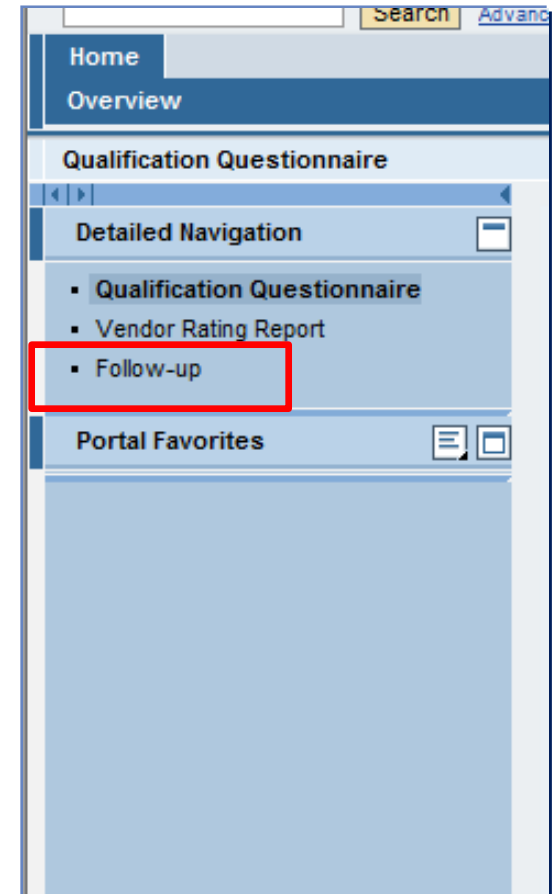

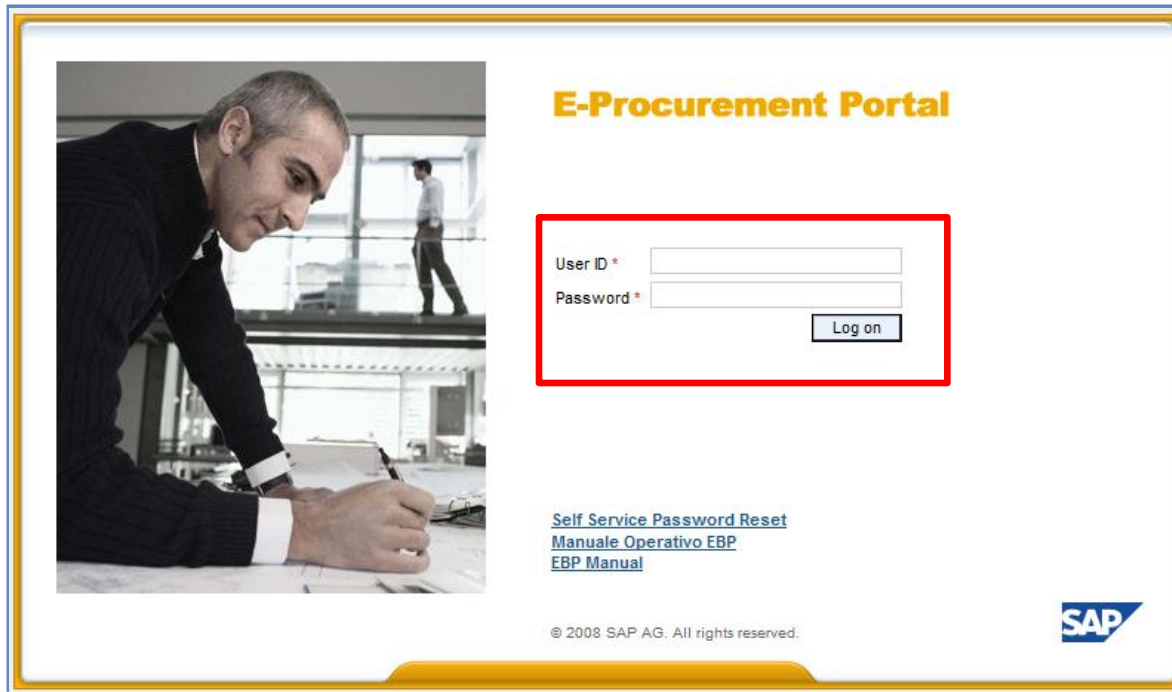

- It is needed to dispose of
  - a shared portal cockpit to manage the action plans aimed to the improvement of the commercial relationship with the vendors (especially after a valuation campaign)
  - a shared portal area, where both suppliers and buyers can upload documents related to the action plan tasks.
  
- Through this tool, the suppliers will be able to
  - organize the tasks planned by the reference buyer
  - upload documents in the area shared with the buyer
  - send to the buyer messages related to the documentation provided.

---

Follow Up Cockpit

# Follow Up Cockpit

After signing in the Pirelli Portal entering userID and password, the user can access the Follow Up Cockpit (cockpit, in the following) through a link in the *Detailed Navigation* panel.

# Follow Up Cockpit

The cockpit is divided into 2 sections

**Follow Up Query** [Change Query](#)

▼ Hide Quick Criteria Maintenance

## Follow Up Cockpit

---

In the first section, it is possible to search through the tasks specifying the searching parameters

- **Industry Code**
- **Responsible Buyer**
- **Status** of the task
- **Due date** (the expected end-date of the action plan)
- **Activity description**
- **Activity Code** (ID of the question in the Vendor Rating Questionnaire, if the activity is inserted after the result of a Vendor Rating Campaign)
- **Survey Package Name** (identifies the Vendor Rating Campaign).

By clicking on the button  the selection will be executed.

In particular, five statuses are available:

- **NEW**: for the newly created tasks
- **IN ACTION SUPPLIER-IN ACTION PIRELLI**: since no automatic e-mail will be sent when the vendor or the buyer updates a task (i.e. upload of new documents or creation of new tasks), is necessary to **set manually the status of the task** to show who last modified the task or the documentation on the related cFolders (so IN ACTION SUPPLIER means that the next action is expected on behalf of the supplier's side).
- **CLOSED**: for the ended task (only a buyer can close a task)
- **DELETE**: for the deleted tasks. This status is set automatically when the buyer deletes a task (only a buyer can close a task).

## Follow Up Cockpit

---

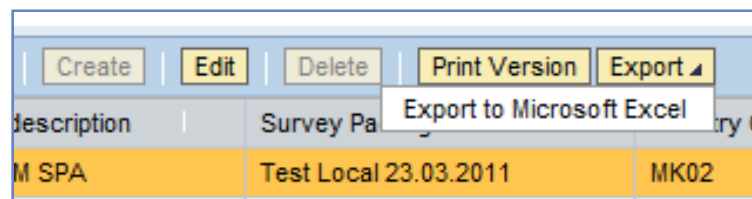

In the second section, the list of all the tasks regarding the specific supplier is shown. Each record has the following fields:

- **Business Partner**
- **Vendor description**
- **Survey Package Name**
- **Industry Code**
- **Responsible Buyer**
- **Activity description**
- **Activity Code**
- **Due Date** (expected end date of the action plan)
- **Status description**
- **Data Source** indicating whether the task has been inserted automatically (“A”) or manually (“M”)
- **cFolders** (link the shared area).

The following actions are available for the supplier:

- **Modify** the status of a selected task, by clicking on the button **Edit** (the only available status is IN ACTION SUPPLIER)
- **Export to Microsoft Excel** the list of the tasks.

In particular, the vendor cannot create a new task or close/delete an existing task.

The screenshot shows a software interface with a table of tasks. The table has columns for 'description', 'Survey Pa', and 'ry C'. The first row of data is highlighted in orange and contains the text 'M SPA', 'Test Local 23.03.2011', and 'MK02'. Above the table is a menu bar with buttons for 'Create', 'Edit', 'Delete', 'Print Version', and 'Export'. The 'Export' button is open, showing a dropdown menu with the option 'Export to Microsoft Excel'.

description	Survey Pa	ry C
M SPA	Test Local 23.03.2011	MK02

# cFolders

The name of the main folder has the form “SRM code of the vendor – Name of the vendor”. It contains the folder *FOLLOW UP*, which includes one subfolder for each Survey Package (= Vendor Rating Campaign) containing the vendor.

In the left panel is displayed the hierarchy of the folders, while in the right panel the *Folder Contents* are displayed, showing the subfolders and the document list with the available actions.

The header of the windows reports the currently browsed folder.

The tick near the file name indicates that the file has been already read by the currently logged user.

The screenshot shows the IRELLI web interface. The top navigation bar includes the IRELLI logo and the text "Collaboration on the Web". Below this, there are links for "Home", "Refresh", "Search", "Favorites", "Settings", "Help", and "Logout".

The left sidebar displays a folder hierarchy for "0001099523 - DIESYS ENGINEERING SRL". The folders are: "FOLLOW UP", "VR", "VR - test local 20.06.2011", and "Task 1".

The main content area is titled "Folder Task 1" and shows the "Current Path": "0001099523 - DIESYS EN... > FOLLOW UP > VR - test local 20.06... > Task 1". Below the path, there is a note: "To create folder objects, select *Create*. To copy or delete objects, select the required objects and then choose *Copy* or *Delete*."

The "Folder Contents" table lists the following items:

	Name▲	Current Version	Status	Changed by	Changed on
<input type="checkbox"/>	Doc1	template report.pdf (192KB)		Marco Santini	05.07.2011 08:28:05
<input type="checkbox"/>	Doc2			Alessandra Comucci	04.07.2011 10:11:07
<input type="checkbox"/>	Document task1	Sicrem.txt (1KB)	✓	Alessandra Comucci	04.07.2011 10:06:00

# cFolders

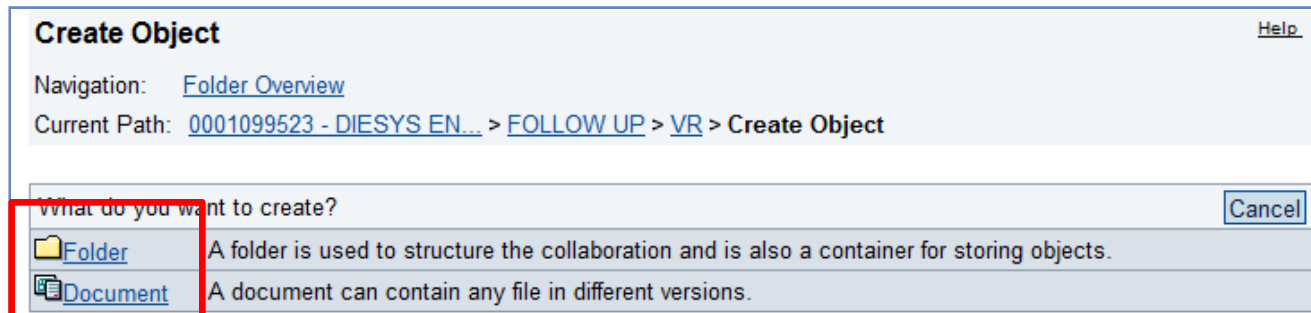

## *Create a new document*

---

To create a new document in the current folder, click on the button *Create*, then choose *Document* and click on *Save*.

After saving, the new folder will be displayed in the left panel, under the corresponding containing folder. Click on *Cancel* to stop the creation of a new document.

**Note:** a supplier has no authorization to create a new folder.

# cFolders

## *Create a new document*

---

If you choose to create a new document, in the following screen you will have to enter the name of the document and eventually the description.

In the field Categorization choose Follow-up Document.

You must also choose between

- *Upload Local File*
- *Create File Later.*

Then click on *Continue*.

**Create Document** [Help](#)

Navigation: [Folder Overview](#)

Current Path: [0000011296 - ALUCHEM SPA](#) > [FOLLOW UP](#) > [VR](#) > Create Document

Create Document

Enter the name and a description. Decide whether or not you want to upload a local file now or later. Then choose Next.

Upload Local File

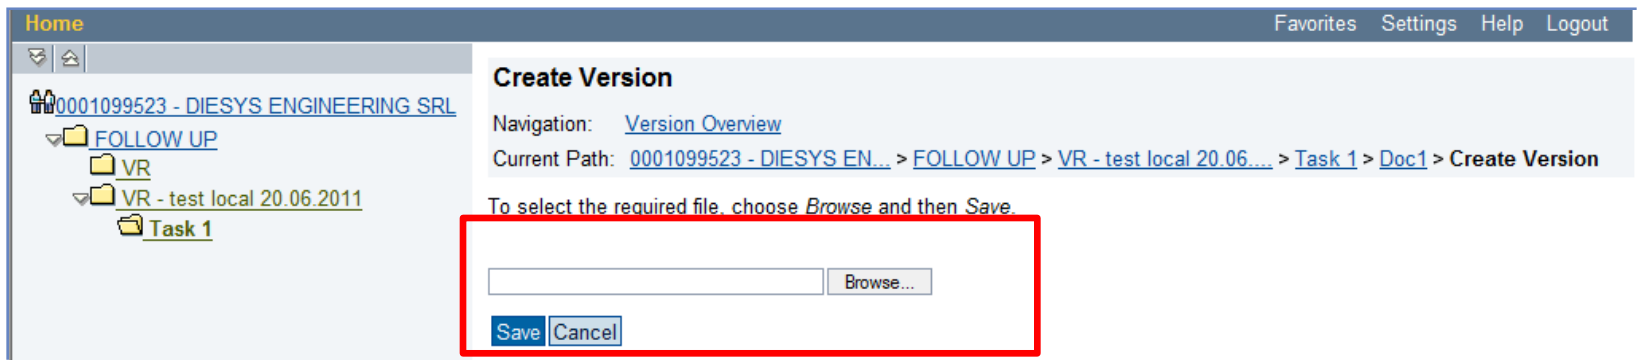

Create File Later

# cFolders

## Create a new document

---

If you select *Upload Local File*, in the following screen you must select the file from your computer by clicking on the button *Browse*.  
Then click on *Save*.

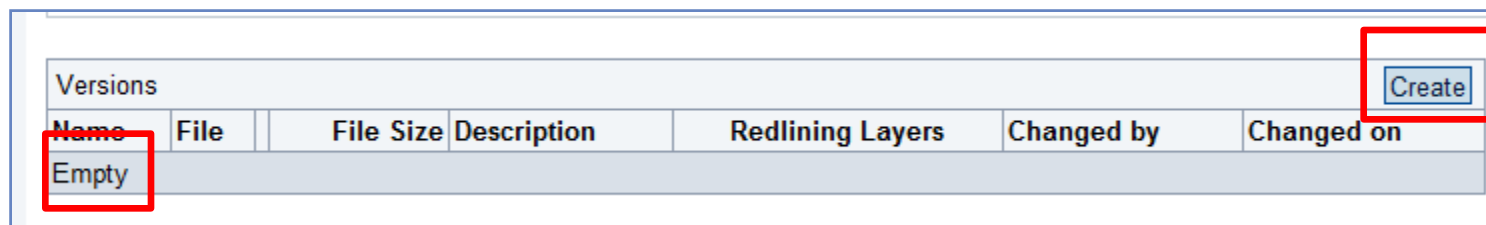

# cFolders

## Create new folder/document

If you select *Create File Later*, no file will be associated to the document, but the user will have to create a new version of it.

Clicking on the name of the document, in the *Folder Contents* panel, the document will be empty.

To create a new version of a document, click on the button *Create* in the *Versions* panel, and then choose the file from your computer.

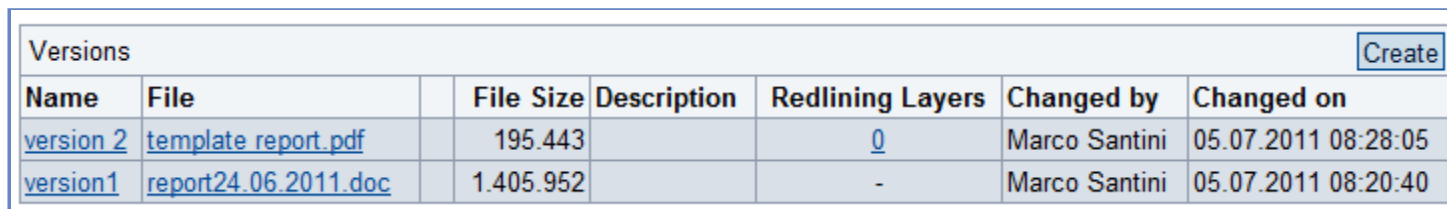

The screenshot shows a 'Versions' panel with a table containing one row labeled 'Empty'. A red box highlights the 'Create' button in the top right corner of the panel.

Name	File	File Size	Description	Redlining Layers	Changed by	Changed on
Empty						

In the document list inside the folder, always the last created version will be displayed. By clicking on the document name, it is possible to see all the previous versions, in the *Versions* panel related to the document.

To open the document click on the file name.

The screenshot shows a 'Versions' panel with a table containing two rows of document versions. A red box highlights the 'Create' button in the top right corner of the panel.

Name	File	File Size	Description	Redlining Layers	Changed by	Changed on
<a href="#">version 2</a>	<a href="#">template report.pdf</a>	195.443		0	Marco Santini	05.07.2011 08:28:05
<a href="#">version1</a>	<a href="#">report24.06.2011.doc</a>	1.405.952		-	Marco Santini	05.07.2011 08:20:40

Notifications

---

---

# cFolders

## Notifications

The supplier is allowed to send a message to the reference buyer only when this message is related to a document: it is not possible to send notifications at a folder level.

To enter the messages area, click on the document name, then on the button *Notifications*.

It is possible to filter the messages editing the fields *Notification Filter* and *Time period* and clicking on *Select*.

To create a new message, click on the button *Create*.

The screenshot shows the IRELLI web application interface. The top navigation bar includes the IRELLI logo and the text "Collaboration on the Web". Below the navigation bar, there are links for "Home", "Refresh", "Favorites", "Settings", "Help", and "Logout".

The main content area is titled "Notifications for Doc1" and includes a "Help" link. The navigation path is: "0001099523 - DIESYS ENGINEERING SRL" > "FOLLOW UP" > "VR - test local 20.06.2011" > "Task 1" > "Doc1" > "Received".

The "Notifications" section contains a "Select Received Notifications" form with the following fields:

- Notification Filter: All (Read/Unread) (dropdown menu)
- Time Period: All (Read/Unread) (dropdown menu), 05.07.2011 (text input), DD.MM.YYYY (format indicator)
- Unread (checkbox)
- Read (checkbox)
- Hidden (checkbox)
- Select (button)

Below the form, it shows "Number of Notifications: 1" and buttons for "Create", "Hide", "Delete", "All", and "None".

The notification table has the following data:

P...	S...	Subject	Sender	Sent on...
<input type="checkbox"/>		message Doc1	Marco Santini	05.07.2011 09:49:32

# cFolders

## Notifications

It is possible to modify the standard subject, set the priority and enter the text of the message. Please note that, since the message will not be saved as a “sent item”, if you want to keep trace of the sent notifications, you must include your own name as a recipient of the message. Finally click on *Send*.
